“Inflight Estimation of Spacecraft Sensor Alignment,” M. D. Shuster, Paper No. AAS 90-041, *AAS Guidance and Control Conference*, Keystone, Colorado, February 3–7, 1990; Proceedings: *Advances in the Astronautical Sciences*, Vol. 72, 1990, pp. 253–274.

This work explored different Kalman filter approaches to inflight alignment estimation.

See the comment to 2003g for a more complete description of the work.
